

Dear All Families

As a school we are working hard to be more eco friendly. We have developed a policy to reduce single use plastics and now are working with local shops to reduce food waste.

We are now partnered with The Greggs Foundation and they donate the food waste that can be re-used within a 24-48 hour period to us EVERY Tuesday evening.

We have had our first donation and are shocked by the amount of food that would have been placed in waste. We will be using some of this in school however, we have far too much! We would like our families to support us in the reduction of food waste. If any families are happy to receive and use a food waste package on a Wednesday as treats for everyone please just dojo us, so we can share fairly. We don't want it going in the bin!

Kind Regards,
The Stepping Stones Team
