

Animal word problems

My nature walks...

On Monday I saw 42 badgers but on Tuesday I only saw half the amount of badgers I saw on Monday. How many did I see in total?

On Thursday I saw 36 snowy owls but on Friday I saw double the amount of owls I had seen on Thursday. How many did I see in total?

In September I saw 37 robins, in October I saw 25 sparrows and in November I saw 19 owls. How many birds did I see in total?

In the autumn I saw 42 rabbits, in the winter I saw 11 rabbits and in the spring I saw 27 rabbits. How many rabbits did I see in total? Which season did I see the most rabbits? What did you notice?

In the spring I saw 51 cats, in the summer I saw 25 cats and in the autumn I saw 17 cats. How many cats did I see in total? Which season did I see the most cats? What did you notice?
