Feeding Time at the Zoo

The Education Team at ZSL look after a small collection of animals including snakes and rats.

These animals have special diets which are worked out to their individual needs:

Name	Species	Food	Frequency
Sausage	Corn snake	1 mouse	10 Days
Cornelius	Corn snake	1 mouse	10 Days
Reggie	Royal python	2 mice	7 Days
Ebeneezer	Royal python	1 mouse	21 Days
Attenborough	Brown rat	2g seed	Everyday
Raffles	Brown rat	2g seed	Everyday
Fossey	Brown rat	2g seed	Everyday
Darwin	Brown rat	2g seed	Everyday

Calculate how much food the animals will need this month and complete the monthly food order.

Animal Facts

I can solve problems by scaling up.

Solve these problems.

Make sure that you write out the whole number sentence in the box.

1. Sofia the snake is twice as long as her sister Sandra. How long is Sofia?

Sandra the snake

250cm

2. Aunt Sara the snake is three times the length of Sandra. How long is she?
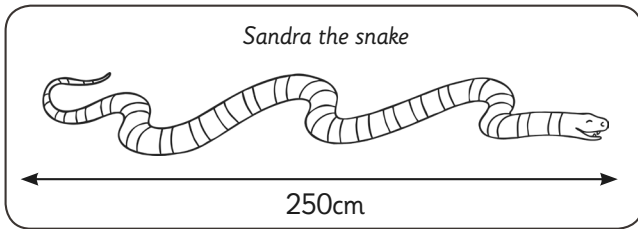

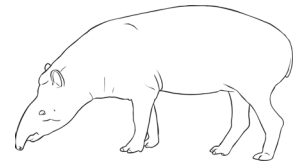

3. Complete the table for the Tapir family:

	Tomas Tapir Facts	Tania Tapir (Three times the size)	Mum Tapir (Four times the size)	Dad Tapir (Eight times the size)
Height	20cm	20cm x 3 = 60cm	20cm x 4 = 80cm	20cm x 8 = 160cm
Body Length	35cm			
Weight	25kg			
Tail Length	5cm			

4. Work with a partner. Measure your height, length of your foot, length of your hand and circumference of your head. Work out what these measurements would be for someone exactly twice your size.
