

# Oak Class News

## Summer Term 2

### Who's Who!

Miss Wilkie and Mrs Rossall will be working in Oak Class Monday to Friday.

### Important Things To Remember

- PE is on a Tuesday
- Your child needs to bring in a **water bottle** filled with water every day. They can have juice provided by school in class.
- Please check **Class Dojo** regularly to keep up to date with the latest information and updates from the school and our class

### This half term's Values

- Wk 1: Trust and Respect
- Wk 2: Positivity
- Wk 3: Unity
- Wk 4: Understanding
- Wk 5: Honesty
- Wk 6: Patience
- Wk 7: Tolerance and Kindness

## A Peek At What We Are Learning

English

Using 'Peril at the Bake Off' by Ruth Quayle, the children will learn an array of grammar skills: conjunctions of time, adverbs of manner, imperative verbs and how to correctly punctuate direct speech. There are two main writing outcomes (including lots of smaller tasks in between). The first is an instruction text- where the children get to make delicious cakes and then write a recipe for them. The second is a mystery narrative.

Math

This half term, pupils will apply their maths skills through real-world projects. They will design a theme park, using budgeting and profit calculations to plan attractions and manage costs. Pupils will also explore measurement and ratio through recipe-based activities, converting units and adjusting quantities for different group sizes. These activities will help develop problem-solving, reasoning, and an understanding of how maths is used in everyday life.

Science

In this unit, children will learn how living things are classified, including microorganisms. They will sort animals using observable features and learn key groups for animals, plants, and microorganisms. Pupils will also explore the difference between identification and classification and use classification keys. They will investigate yeast as a microorganism through a respiration experiment and consider how microorganisms can be both helpful and harmful in food and medicine.
